

LED CORN BULB

B22/CORN/12W, E27/CORN/12W

B22/CORN/20W, E27/CORN/20W

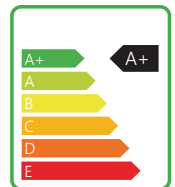

Lightwell LED Corn Bulbs are designed to replace metal halide and high-pressure sodium lamps to save energy and lower utility costs with their superior energy efficiency and long lasting technology. Available in 12W and 20W versions, these LED retrofits produce the same amount of light output of their HID light bulb equivalent and with a high Lumen maintenance, our LED retrofits maintain a bright light throughout their lifespan. These LED corn lights are available in cool white and warm white colour temperatures as well as a B22 or E27 fitting option.

- ✓ Perfect retrofit with high quality finish
- ✓ 350° beam angle to provide full illumination
- ✓ 2 Colour temperatures - 3000K, 6000K
- ✓ Environmentally friendly: no mercury or hazardous substances

Application

High Bay Lamps, Street Lights, Pathway Lighting, Warehouses, Offices, Commercial Lighting

PRODUCT SPECIFICATION

Code	Base	Dimensions	Beam	Lumens	Power	Input	Colour	Kelvin	Dimmable
B22/CORN/12W/3000	B22	ø60mm*145mm	350°	1700	12W	AC85-265V	Warm White	3000K	X
B22/CORN/12W/6000	B22	ø60mm*145mm	350°	1700	12W	AC85-265V	Cool White	6000K	X
E27/CORN/12W/3000	E27	ø60mm*145mm	350°	1700	12W	AC85-265V	Warm White	3000K	X
