

60 SMD - 4.5 Watt GU10 LED Spotlight

A TRUE 50 WATT REPLACEMENT.

Lightwells flagship GU10 LED bulb features 60 individual high quality 5050 SMD LEDs emitting a light output of 380 lumens. Using only 4.5 watts of power, these energy efficient bulbs, with an equivalent brightness of 50 watts, reduce energy consumption by up to 90%. Featuring a massive 120-degree beam angle, they output the widest beam angle available of any SMD bulb on the market today. They are fully compatible with both dimmable and non-dimmable applications and are available in Warm White, Cool White and Natural White.

They install into any GU10 socket with an input voltage of 240V and are designed for domestic, commercial or retail installations. These LED equivalents feature shock and vibration resistant technology, with no filament they run considerably cooler than standard bulbs.

Application

Kitchens, Bathrooms, Studies, Hallways, Living Areas, Offices, Retail, Task Lighting, Store Displays.
