

Superior COB™ - 6 Watt MR16 COB LED Spotlight

UTILISING THE LATEST COB SPOTLIGHT TECHNOLOGY

This is Lightwell's latest COB spotlight offering massive output (equivalent to a 50-60w). COB stands for Chip-on-Board which is a much newer technology than individual SMD chips.

Other advantages over older style lamps is the increased CRI values. These lamps have been designed with the warmer 2700K COB's to replicate a true halogen lamp, offering higher CRI values than any lamp we have ever tested. One of Lightwell's most popular MR16 bulbs, the Superior is available in warm white (2700k) and cool white (6000k) options.

Application

Kitchens, Bathrooms, Studies, Hallways, Living Areas, Offices, Retail, Task Lighting, Store Displays.
